2019

2020

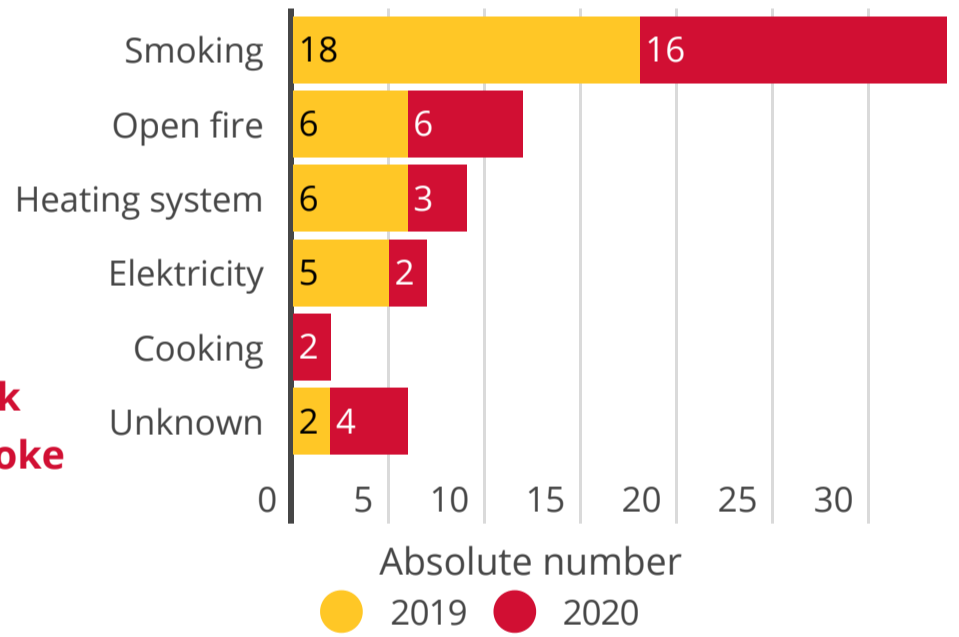

The causes of fatal fires

Almost half of the fatal fires were caused by the careless smoking.

Only 29% of the homes, where the fatal fires took place, had a working smoke detector.

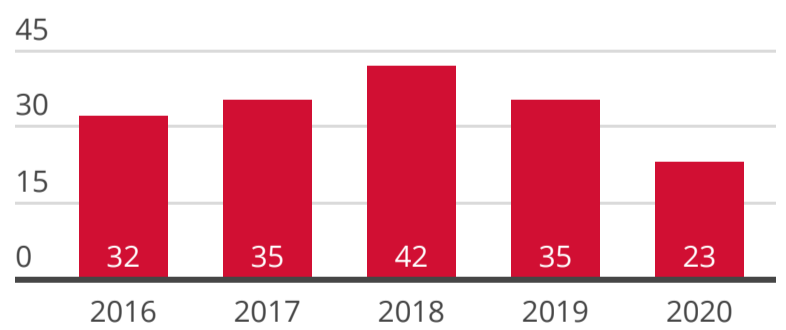

Out of the 33 fatal fires 12 took place in block of flats, 9 in detaches houses and 1 in a summer house.

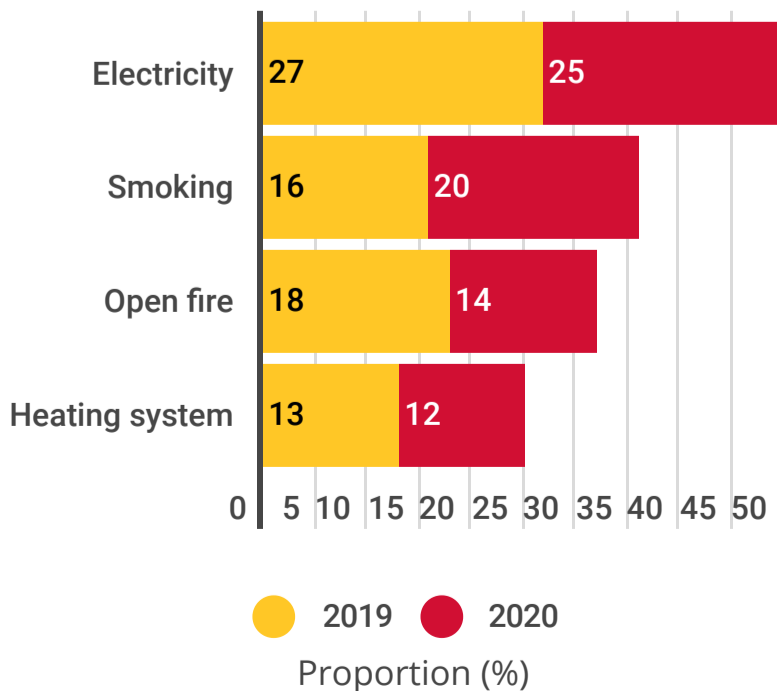

In 2020 there were less fatal residential fires than in last four years.

Fatal residential fires (buildings in use)

Fire causes in residential buildings (buildings in use)

Fire causes in non-residential buildings (buildings in use)
